

Magic Rabbit Set for TOM

First I have to thank you for purchasing this little two rabbits. It's an easy mod, because no soldering is necessary, you have only to put the wires through a hole of the playfield to get the wires to the right place.

To get the wires through the playfield, its easier to remove the original Slingshot Plastic and put the wires to the holes like shown in the picture.

Right Slingshot

Place the original plastic back and put the Rabbits on it

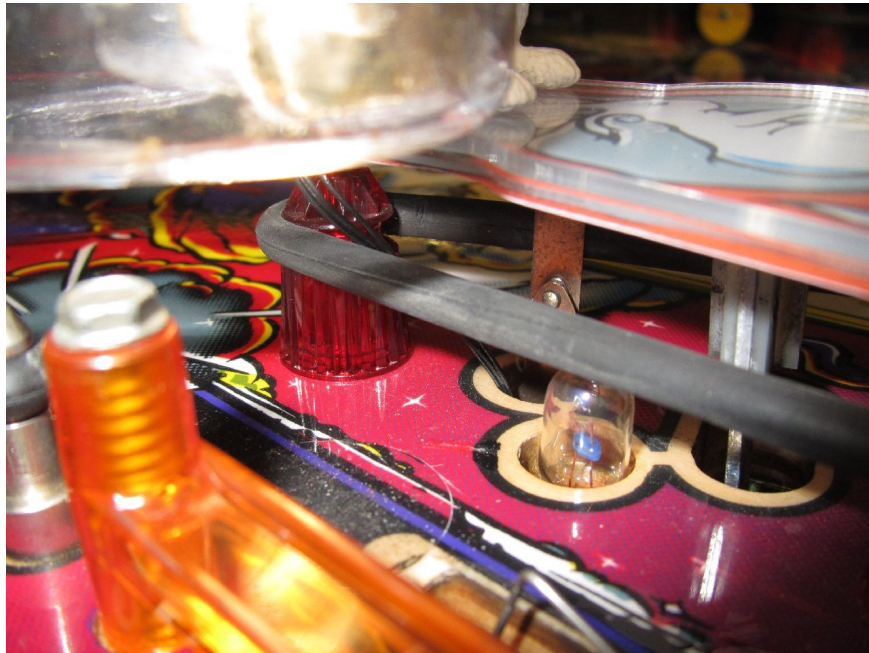

way of the wires

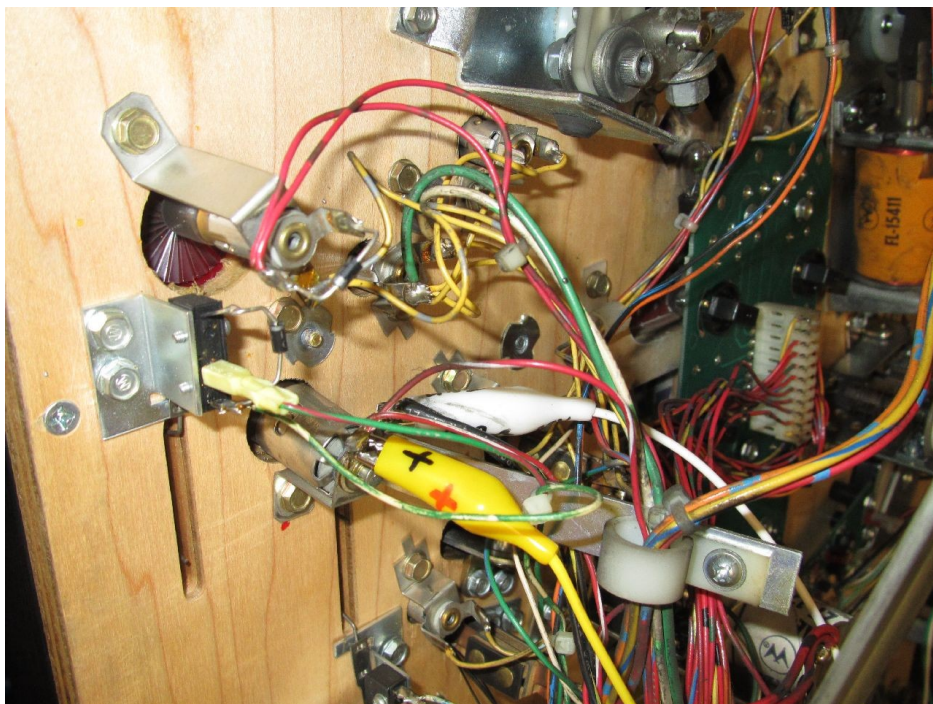

Same for the left one

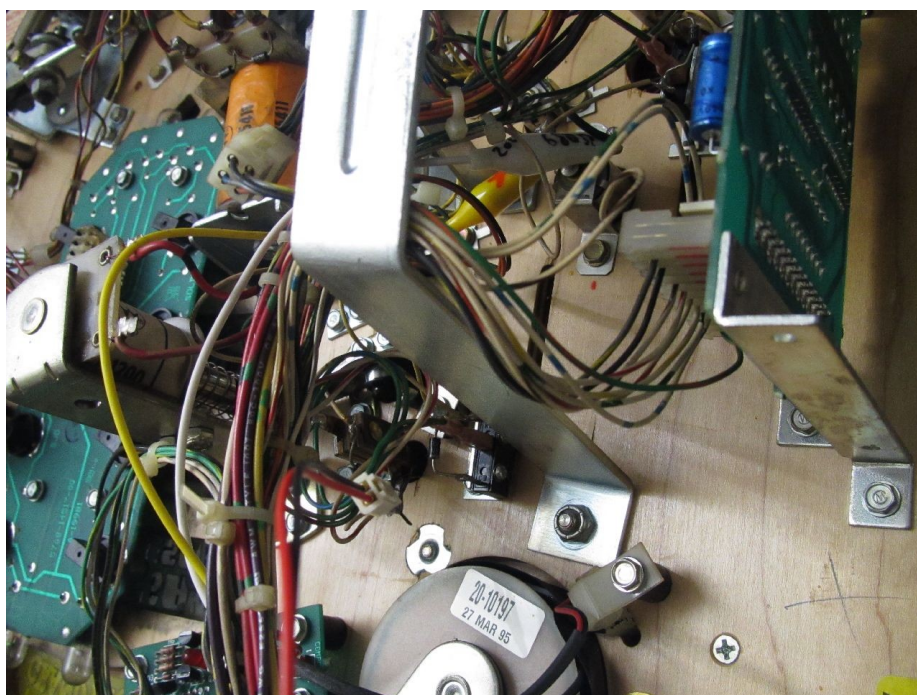

The colors of the alligator may different but there will be marked with + and GND
(If it don't work exchange the colors of alligators)

Leftsite Flasher connecting:

rightsite Flasher Connect it here:

For me its a great mod and I hope you will enjoy it like me.
