

Scary Ghost for Scared Stiff (SS)

Thanks for purchasing Mods from me Made in Germany ;-)

It's an easy and reversible Mod. No soldering is necessary. You have only to replace the plastic with the new one containing the ghost and put the wires through a hole and connect it via alligator connectors.

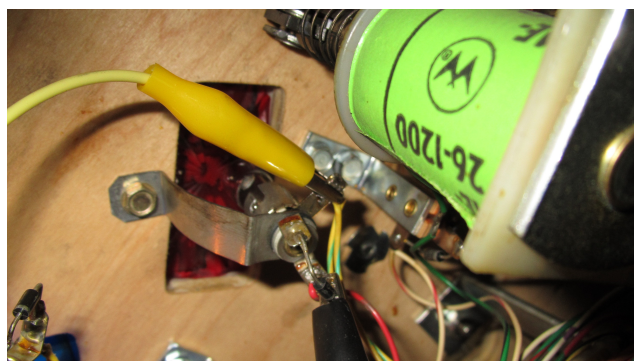

(remove the plastic)

(here you can go under the playfield)

Open the playfield and connect the alligator connectors to the Eyes of Boney Beast Insert like this:

(Eyes of Boney Beast Insesrt, yellow is marked +)

For me its a great mod and I hope you will enjoy it like me
