

Skeleton Mod for Tales of The Arabian Nights TOTAN

First I have to thank you for purchasing my mod...

It's an easy and reversible Mod. No soldering is necessary. You have only to put the skeleton into the bed of nails like shown in the foto and put the wires through a hole and connect it via alligator connectors.

Open the playfield and put the wires like this.

Remove some screws to get the wires under the plastic

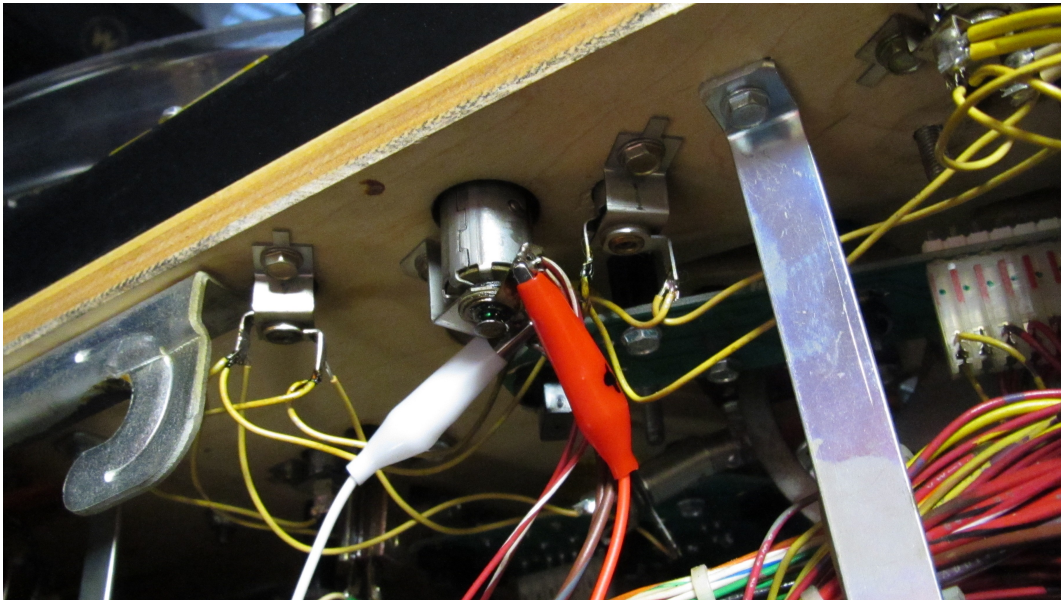

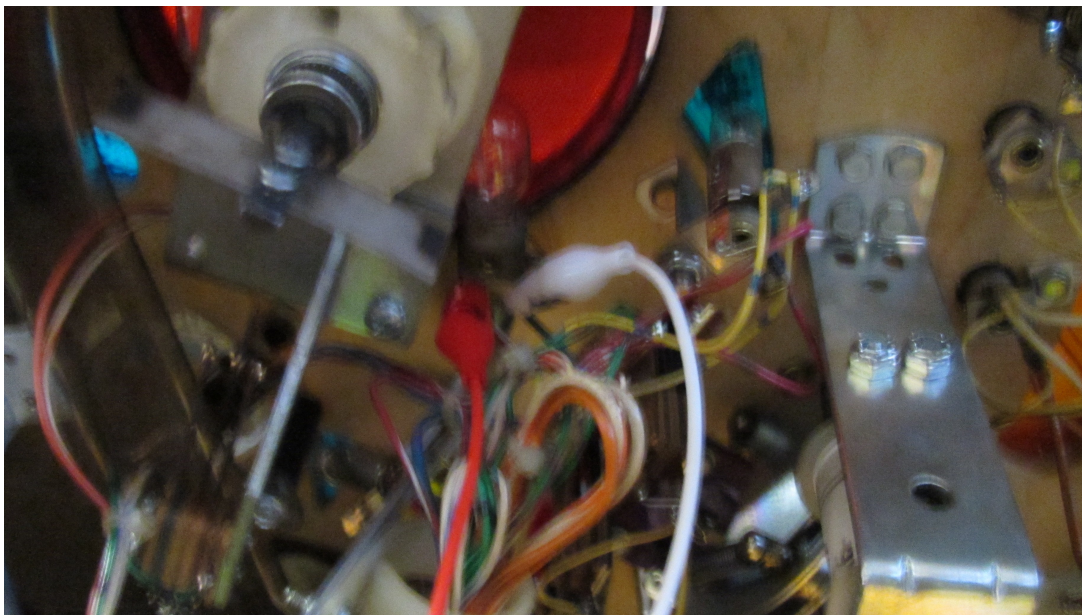

Use this hole:

Connect the eyes to this flasher red markes +

connect the chest to the flasher under aladdins lamp red marks +

For me its a great mod and I hope you will enjoy it like me
